

Kos, the beautiful island of Hippocrates, father of Medicine, according to the Greeks, is the third largest island of the Dodecanese and one of the most popular to visitors.

It has a 120km coastline and an excellent climate, with white, scenic settlements and villages surrounded by green mountains. With endless, beautiful beaches of crystal-clear waters, the island has a glorious past and a fascinating present. The history of the island goes back to the legendary periods of Mythology, with relics such as the ancient city, the tree of Hippocrates the Asclepion ruins and castles of the Knights of St. John.

Kipriotis Hippocrates & Maris Suites is the perfect place for relaxation and the best choice for sightseeing lovers.
